Notes:

- 1.SkyTeam flights with the code AM/AF/KL/OK/DL/KE/SV/ME/SU/VN/KQ/ UX/RO/MU/ FM/CI /AR/GA/VS and operated by SkyTeam member airlines are eligible for mileage accrual.
- 2.All chartered flights and award tickets (including tickets redeemed with miles) are not eligible for mileage accrual.
- 3.Codeshare flights between SkyTeam member airlines and non-SkyTeam airlines are not eligible for mileage accrual.
- 4.If an Egret Miles member is concurrently a member of other SkyTeam member airlines' frequent flyer programs, the mileage can only be accrued to ONE frequent flyer program account.

Notes:

1. TPM is based on the standard city-pair distance released by International Air Transport Association (IATA) and is recorded in kilometers.

2. Mileage inquiry and retro-claim: You can inquire into your mileage balance or claim retroactive miles by accessing our website at www.xiamenair.com. Alternatively, you may use our official Mobile App, WeChat, our service hotline (95557), or contact us via email or fax. Please include your Egret Card number on the copies of your itinerary and boarding pass in any email or fax communications with us. You can also claim retroactive miles earned from SkyTeam partner airlines through our official website and Mobile App. If you fail to retro-claim your miles earned from a SkyTeam partner airline, or if the SkyTeam partner airline you request has not yet opened online retro-claim functionality on our website, please send us BOTH the original Boarding Pass (or a copy) and a copy of your ticket or e-ticket itinerary. Be sure to include your Egret Card number when contacting us. Requests should be made within six (6) months from the date of the associated flights or the use of our partners' services. Any mileage from flights or transactions claimed beyond the six (6) month timeframe will no longer be eligible.

3. Mileage validity: The validity for award miles is calculated from the flight date, or the date you purchased a product or service from an Egret Miles partner, until December 31st of the fourth consecutive calendar year. For example, miles accrued from taking an eligible flight on any day in 2023 will remain valid until December 31st, 2026. Award miles will automatically expire if they are not redeemed during this period. Miles accrued from taking a flight or purchasing a product or service from our partners' before December 31st, 2006 will remain valid for life.

Tips:

1. Mileage is credited to the traveler's Egret Miles account. It is prohibited for several different members to accrue miles into one account.

2. Mileage accrual starts from the date of your enrollment in the Egret Miles program; your ticket will only be accrued after it is used. 3. Please keep your boarding pass and/ or itinerary until award miles have been correctly credited to your account.

4. Please quote your Egret card number at the time of reservation or purchase, ensuring the passenger name and identity document number are consistent with the information recorded in your Egret account.

5. Please present your Egret card or quote your Egret card number when checking-in at the airport. If you pay for a class of service upgrade onboard, you award mileage for the flight will be based on your original class, not the upgraded class.

6. In the case of a discounted ticket for a specific product, the award miles, membership qualifications/maintenance miles and segment are subject to the rules and regulations for that specific product.

7. If the actual class is different from the booking class, or the discounted ticket is obtained through group purchasing, mileage accrual will be subject to the corresponding standards for the actual amount paid.

8. If you take a code-share flight, the miles will be accumulated based on the flight number and relevant flight information of the marketed airline.

9. If your ticket changes carriers, whether voluntarily or involuntarily, to another airline, you will not be able to earn points for that flight if the final flight is not within the member's accrual criteria.
